

# SMART CCTV

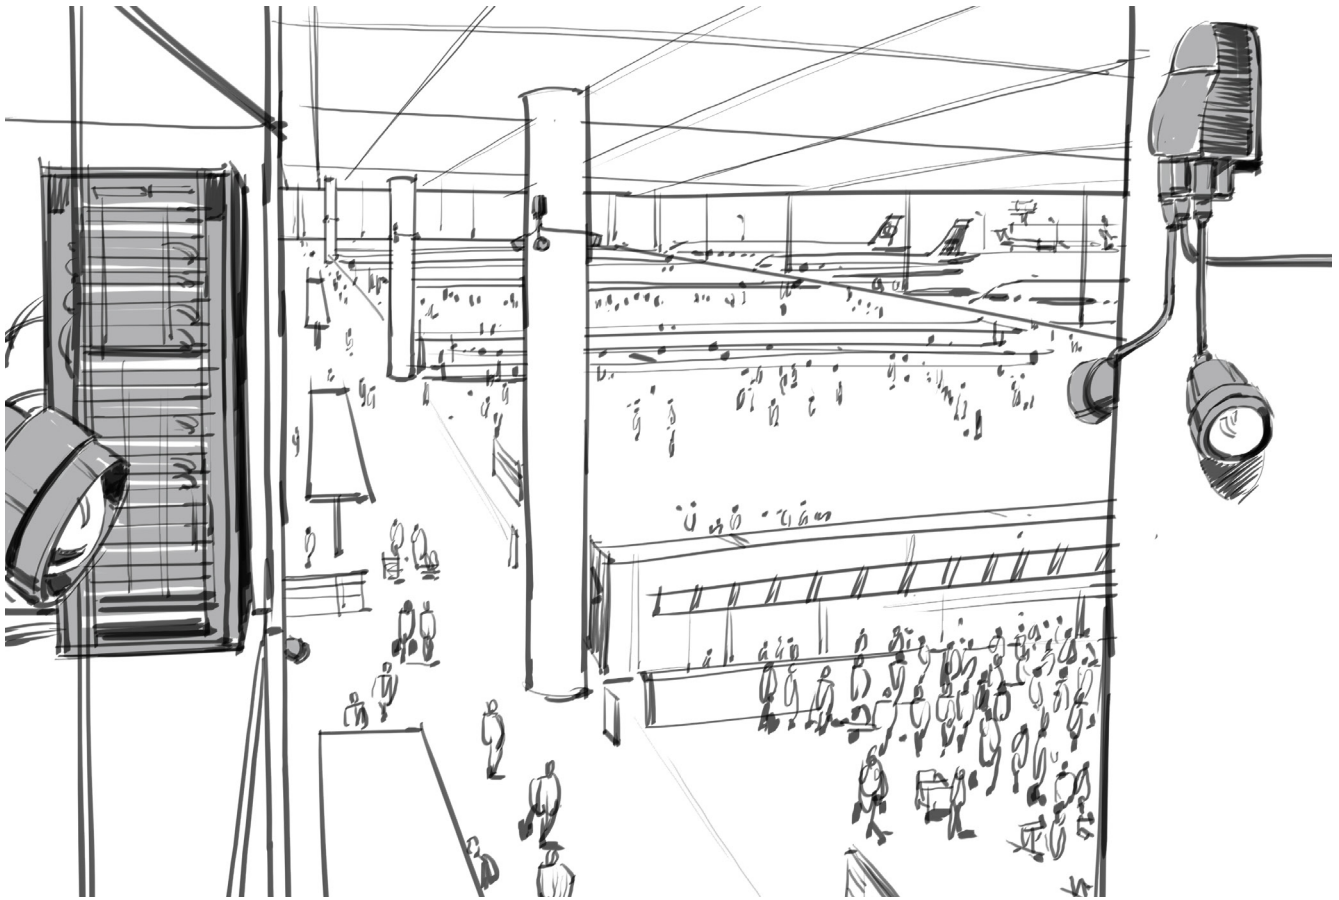

## Fiber optic solutions

### Making safety smart

Safety is a basic requirement of our society. Today, but also tomorrow. Thus, HUBER+SUHNER has developed unique solutions for CCTV applications that guarantee reliable data transmission also in the future. High resolution cameras create high data rates and the need for broadband connectivity is growing. Our flexible and scalable MASTERLINE Ultimate SC fiber optic cable system offers future-proof connectivity. Thanks to an intelligent combination of connector, cable and distribution solutions installation and maintenance can be executed not only from specialists but also by on place available staff. Thus, the disposability of a reliable broadband connection is always guaranteed.

# Small cell solution for smart CCTV installation

HUBER+SUHNER CCTV connectivity solutions offer the most easy to install link from the supervision room to the camera. The hand in hand working rack solution includes fiber management solutions at the most space saving footprint. The implemented Q-ODC-12 assemblies allow a "plug & play" connection without the need of time consuming splicing. Furthermore the assemblies can easily get extended thus supporting a modular changeable network rollout. With MASTERLINE Ultimate SC connecting CCTV-Cameras has never been easier. The pre-connectorised factory-sealed, "plug & play" fiber optic system supports up to 4 high resolution CCTVs and connects them with easy-to-install Q-ODC fiber optic jumpers.

## Key benefits

- Optimized rack footprint with market leading fiber density reducing planning and development costs
- Q-ODC-12 splitter modules for most convenient fiber routing inside the Rack
- Q-ODC-12 assemblies offering highest flexibility and reliability
- MASTERLINE Ultimate SC for discrete installation
- Supporting large scale projects with on the go cabling
- Limits project risks and down time due to most convenient non-technical handling

HUBER+SUHNER for a fast, modular and secure rollout of your CCTV-Network.
