

# RADOX® high voltage distribution unit

## 800V modular solution to achieve flexibility

### Features

- Modular solution
- Designed with standardised components
- Compatible with HUBER+SUHNER high-voltage portfolio (RADOX® HV cable and connection system EV-C 2)
- Automotive validation
- Optional IMD and InterLock loop

### Benefits

- Scalability of inputs & outputs
- Easy to adapt
- Commercial off-the-shelf product
- Suitable for harsh conditions
- Proven internal connections, terminals and busbars

### USPs

- Improved lead-times
- Fast assembly and installation onto a vehicle
- Vehicle time-to-market reduction
- On and off road readiness
- High power distribution efficiency
