- ASSEMBLY INSTRUCTION 1

ASSEMBLY INSTRUCTION

Scope of delivery:

- Pre-assembled cable system
- Optical Socket (OTS) pre-connected to the cable system
- Functional packaging for unwinding the system

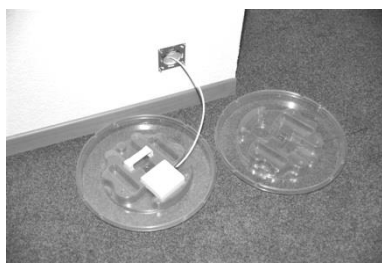

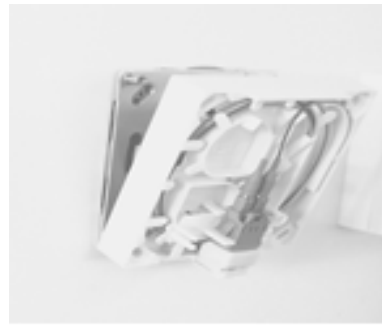

Required tools:

- Screwdriver (Philips-head)

Step 1

Fix the mounting-plate at the predefined place.

<p>Step 2</p>	<p>For a simple unrolling of the cable, stick a screw-driver or a small pole into the hole of the Home Fiberling System.</p> <p>Take the outer end of the cable and start installation to direction of floor-distributor (FD) or building-entry-point (BEP).</p>	
<p>Step 3</p>	<p>Unroll the cable completely</p> <p>At the end open the two half-shell...</p>	
<p>Step 4</p>	<p>... and fit the OptiSocket at the pre-installed mounting-plate</p>	
<p>Step 5</p>	<p>Assemble the cover to the box-base</p> <p>Insert the labeling-strip (Template for labeling-strip see www.fiberinthehome.com)</p>	

<p>Step 6</p>	<p>If needed snap on the patchcord-locking-feature</p>	
<p>Step 7</p>	<p>For recycling stack the half-shell into each other and bring them to the next waste removal station</p>
